

Listing of Claims

1 - 84. (Cancelled).

85. (Previously Presented). A method for forming an immune complex, the method comprising:
- a) providing beta-amyloid in the presence of physiological levels of human serum albumin;
 - b) forming an incubation mixture comprising the components of step a) and an antibody specific for a beta-amyloid epitope; and
 - c) incubating the mixture of step b) under conditions appropriate for the binding of antibody to antigen.
86. (Previously Presented). A method for forming an immune complex, the method comprising:
- a) providing beta-amyloid in the presence of up to 60 mg/ml human serum albumin;
 - b) forming an incubation mixture comprising the components of step a) and an antibody specific for a beta-amyloid epitope; and
 - c) incubating the mixture of step b) under conditions appropriate for the binding of antibody to antigen.
